- Python
- C
- C#
- C++
- Java
- Next.js
- SQL
- HTML
- CSS
- JAVASCRIPT
- Amazon Web Services
- Linux
- n8n

OTHER SKILLS

- Teamwork.
- Problem solving.
- Adaptability.
- Leadership.
- Strong communication skills.

PROJECTS

- **Development of a project management application powered by artificial intelligence:**

September 2025 - May 2026.
Project under development aimed at building an intelligent app for end-to-end project management. It integrates a large language model (LLM) that automates tasks such as producing SWOT analyses, generating Gantt charts, planning phases and managing resources, among other functions, thereby improving productivity and decision-making.

- **Development and management of a school-based educational project to promote tourism:**

September 2024 - December 2024
A team project we conceived as an educational and playful platform to promote local tourism through photo recognition and virtual rewards. Through this work we developed our project management and leadership skills. With the potential to be built in the future.

- **Team development and management in the creation of a hospital companion robot:**

December 2025 - Present.
A project combining team management, robot design, idea generation, AI development and assembly.

EDUCATION

BACHELOR'S DEGREE IN SOFTWARE ENGINEERING
U-tad | University Centre for Technology and Digital Art
2022 - 2026

HIGH SCHOOL - SOPHOMORE YEAR
Jenks High School, Tulsa, Oklahoma
2018-2019
